

The Lion's Den News

December News

Swinging into Learning

Literacy- Readers will be exploring fables and identifying the lessons that the author is teaching throughout the text. Also, retelling the story using details and evidence from the text.

Math- Mathematicians will be applying their skills to find missing subtrahends and addends. Using the associative and commutative properties to solve word problems. Please

Writing- Writers will be writing narratives and opinion pieces. As they are writing they will be using temporal words and transitions (first, next, then, last, finally).

Social Studies- This month we will explore economics. We will become consumers and producers in our holiday shop.

Science- In science we will continue to study the moon. Scientist will explore the different phases of the moon and even get to take a digital trip to the moon. Blast Off!
